

Wright Punch

1(12oz) can frozen orange juice	5 cups water
1(12oz) can frozen pink lemonade	2 (3oz) boxes strawberry jell-o
1(46oz) can pineapple juice	1 gallon water
2 tsp almond extract	2 (2 liter) bottles Sprite or 7-Up
3 ^{1/2} cups sugar	(diet or regular)

Mix the first six ingredients in a kettle or large pot. Bring to a boil. Remove from heat and add the Jell-o. Stir until dissolved. Add the gallon of water. Mix well and pour into a 4 half-gallon containers. Freeze until ready to serve. Thaw for 2-3 hours at room temperature. To each half gallon container of punch in the punch bowl add 1 quart Sprite or 7-Up. Since the punch does not thaw completely, no ice is needed. Each half-gallon container of punch and quart of Sprite/ 7-Up will serve 15-18. The total recipe will serve 60-70.

Recipe Note: This keeps well in the freezer.
